Re: Case No. 5962-S
3282 Beaudry Terrace

Gentlemen:

Pursuant to the provisions of Article IX, Appendix, Glendale Municipal Code, the Zoning Administrator on August 13, 1975, conducted and closed a hearing, taking under submission the application for Setback Variance to erect a home 15 feet and garage 18 feet from the front property line on Lot 42, Tract No. 25901, being 3282 Beaudry Terrace, which is in the R1 One-family Zone and No. 3 Fire Zone.

After considering the evidence presented with respect to this application, under the provisions of Section 900, Appendix, the Zoning Administrator has made the following findings:

- I. The strict application of the provisions of the ordinance would result in practical difficulties or unnecessary hardship inconsistent with the general purposes and intent of the ordinance in that a home of similar design and size to the surrounding neighborhood would be precluded from the existing lot due to existing topography, the street design, and the configuration of the pad area. The intent of the ordinance is to promote reasonable homogeneity in residential areas.
- II. There are exceptional circumstances or conditions applicable to the property involved or to the intended use or development of the property that do not apply generally to other property in the same zone or neighborhood in that this is one of the few lots not already developed in the neighborhood; other lots have been developed by variance procedure

APR 18 1954

August 18, 1975

where similar terrain difficulties have precluded similar development.

- III. The granting of the variance will not be materially detrimental to the public welfare or injurious to the property or improvements in such zone or neighborhood in which the property is located as the variance will allow development with a residence of similar size and amenity to structures in the neighborhood. The variance will strengthen the homogeneity of the neighborhood. A setback of 18 feet at the garage will ensure reasonable safety at the access point to the street.
- IV. The granting of the variance will not be contrary to the objectives of the ordinance in that property will be afforded development consistent with neighborhood standards; the variance will not precipitate further or more extensive variance requests; and design which respects natural topography will be afforded.

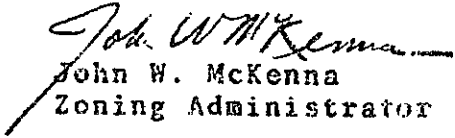

It is, therefore, the determination of the Zoning Administrator on August 18, 1975, that this application for variance be granted.

Under the provisions of Article X, Appendix, the determination of the Zoning Administrator does not become effective for a fifteen-day period. This period of time is allowed for any person aggrieved by this determination to file a written appeal, in triplicate, on forms which shall be provided upon request, to the Board of Zoning Adjustments.

The rights and privileges granted by this variance will expire one year from the date of this grant unless promptly commenced and used in full compliance with the law and all conditions of approval.

Yours very truly,

Gerald J. Jamriska, A.I.P.
Planning Director

John W. McKenna

Conditions

Applications Shall expire 180 days after the date of submittal unless excepted by sec. 107.4 of the Glendale Building Code, and thereafter, any documents submitted to the department shall be returned to the applicant or destroyed by the building official. Upon written request from the applicant, the building official may extend the period of permit application.

Upon completion of the work authorized by this permit, the permittee shall notify the Building Inspection office of such completion by requesting the Final inspection. Such request can be made by calling (818) 548-4836. The permittee is hereby advised that they may be entitled to reimbursement of the permit fees if the city fails to conduct an inspection of the permitted work within 60 days of the request for final inspection.

No construction is permitted before 7 a.m., nor after 7 p.m., Monday through Saturday. No construction is permitted on Sundays or on holidays. (Municipal Code Sec. 8.36.080)

Issuance of trade permits, without complete architectural plans, shall not constitute a waiver of any provisions of the building or zoning codes of the City of Glendale. It is solely the responsibility of the applicant to verify that proposed installations are in compliance with the regulations of all applicable codes or else obtain written approval for any deviation from the regulations.

The City of Glendale restricts issuance of the building permit to the property owner or licensed general contractor only. Signatures of this individual must be verified by personal identification. Any person signing the permit application as agent for the owner or contractor shall have an original letter of authorization at the time of permit issuance.

No rooftop equipment will be allowed unless the applicant obtains a separate variance or administrative exception from the Planning Division. Issuance of this permit shall not be construed as an approval to install equipment on the roof without a variance or administrative exception.

The person signing for this permit acknowledges that there are NO Oak, Bay or sycamore Trees with trunks larger than an eight inch (8") diameter within a twenty foot (20 ft.) influence of the proposed construction.

OWNER - BUILDER DECLARATION

I hereby affirm under penalty of perjury that I am exempt from the Contractors' State License Law for the reason(s) indicated below by the checkmark(s) I have placed next to the applicable item(s) (Section 7031.5, Business and Professions Code: Any city or county that requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for the permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors' State License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt from licensure and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars (\$500).):

I, as owner of the property, or my employees with wages as their sole compensation, will do all of portions of the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractors State License Law does not apply to an owner of property who, through employees' or personal effort, builds or improves the property, provided that the improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the Owner-Builder will have the burden of proving that it was not built or improved for the purpose of sale.)

I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Section 7044, Business and Professions Code: The Contractors State License Law does not apply to an owner of property who builds or improves thereon, and who contracts for the projects with a licensed Contractor pursuant to the Contractors' State License Law.)

I am exempt from licensure under the Contractors' State License Law for the following reason: _____

By my signature below I acknowledge that, except for my personal residence in which I must have resided for at least one year prior to completion of improvements covered by this permit, I cannot legally sell a structure that I have built as an Owner-Builder if it has not been constructed in its entirety by licensed contractors. I understand that a copy of the applicable law, Section 7044 of the Business and Professions Code, is available upon request when this application is submitted or at the following Web site: <http://www.leginfo.ca.gov/calaw.html>.

LICENSED CONTRACTORS DECLARATION

I hereby affirm, under penalty of perjury, that I am licensed under the provisions of Chapter 9 (starting with Section 7000) of Division 3 of the Bus. & Prof. Code, and that my license is in full force and effect.

License Class _____ License No. _____ Contractor's Signature _____ Date _____

OWNER - BUILDER DECLARATION

As the property owner and builder of the proposed project ('owner-builder') you are the responsible party of record on this permit. Building permits are not required to be signed by property owners unless they are personally performing their own work. If your work is being performed by someone other than yourself, you may protect yourself from possible liability if that person applies for the proper permit in his or her name. Contractors are required by law to be licensed and bonded by the State of California and to have a business license from the City of Glendale. They are also required by law to put their license number on all permits for which they apply. If you plan to do your own work, with the exception of various trades that you plan to subcontract, you should be aware that if you employ or otherwise engage any persons other than your immediate family, and the work (including materials and other costs) is \$200 or more for the entire project, and such persons are not licensed as contractors or subcontractors, then you may be an employer. If you are an employer, you must register with the state and federal government as an employer and you are subject to several obligations including state and federal income tax withholding, federal social security taxes, workers compensation insurance, disability insurance costs, and unemployment compensation contributions. There may be financial risks for you if you do not carry out these obligations, and these risks are especially serious with respect to workers' compensation insurance. For more specific information about your obligations under federal law, contact the Internal Revenue Service (and, if you wish, the U.S. Small Business Administration). For more specific information about your obligations under state law, contact the Department of Benefit Payments and the Division of Industrial Accidents. If the structure is intended for sale, property owners who are not licensed contractors are allowed to perform their work personally or through their own employees, without a licensed contractor or subcontractor, only under limited conditions. A frequent practice of unlicensed persons professing to be contractors is to secure an 'owner-builder' building permit, erroneously implying that the property owner is providing his or her own labor and material personally. Information about licensed contractors may be obtained by contacting the Contractors' State License Board in your community or at 1020 N Street, Sacramento, California 95814. Note: The current mailing address of the Contractors State License Board is P.O. Box 26000, Sacramento, California 95826.

Section 7031.5 of the Bus. & Prof. Code requires the permit applicant to sign a statement above or claim exemption from the Contractor's license Law and state the basis for such exemption. Violations of this section subjects the applicant to a civil penalty of not more than five hundred dollars (\$500). I hereby affirm that I have read the paragraph above and willfully accept the responsibility of an owner-builder. I further affirm, under penalty of perjury, that I am exempt from the Contractor's License Law for the following reason:

INITIAL I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that the improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale.)

INITIAL I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who contracts for the projects with a contractor(s) licensed pursuant to the Contractors License Law.). I have or plan to contract with the following person (company) to provide the proposed construction:

Building (Plan Check)	\$72.34	\$72.34	\$0.00
TOTAL:	\$280.71	\$280.71	\$0.00

CONDITIONS

- Provide approved evacuation signs complying with T19 §3.09. Signs shall be submitted for review and approval prior to fabrication at the Permit Services Center. (MFDs 2 or more stories; hotels and motels; I-1 and I-2; high rises; office buildings 2 or more stories)
- No rooftop equipment will be allowed unless the applicant obtains a separate variance or administrative exception from the Planning Division. Issuance of this permit shall not be construed as an approval to install equipment on the roof without a variance or administrative exception.
- A license professional survey may be required for any wall, structure, and building on or adjacent to the property line. And for heights of walls, standards, floors, roofs, and buildings.
- Smoke Alarm: At the time of final inspection, the inspector shall verify the installation of smoke alarms in all sleeping rooms, and hallways leading thereto and each level. Battery operated smoke alarms are acceptable in existing construction.

Carbon Monoxide Alarm: At the time of final inspection, the inspector shall verify the installation of carbon monoxide alarms in all hallways leading to bedrooms, minimum one per floor. Battery operated smoke detectors are acceptable in existing construction.

- Applications shall expire 180 days after the date of submittal unless excepted by sec. 107.4 of the Glendale Building Code, and thereafter, any documents submitted to the department shall be returned to the applicant or destroyed by the Building Official. Upon written request from the applicant, the Building Official may extend the period of permit application.
- New or relocated HVAC or electrical services require separate permits.
- NOTE: All tear-offs require solid sheathing. Install minimum 3/8" structural wood panel with 6d common nails at 6:12. This may be installed over existing spaced sheathing.

- Water-Conserving Fixtures: Effective January 1, 2014, at the time of final inspection, the inspector shall verify the installation of water-conserving plumbing fixtures in all residential and commercial buildings constructed prior to January 1, 1994.
- The person signing for this permit acknowledges that there are NO Oak, Bay, or Sycamore trees with trunks larger than an eight-inch (8") diameter within a twenty-foot (20 ft.) influence of the proposed construction.

Issuance of trade permits, without complete architectural plans, shall not constitute a waiver of any provisions of the building or zoning codes of the City of Glendale. It is solely the responsibility of the applicant to verify that proposed installations are in compliance with the regulations of all applicable codes or else obtain written approval for any deviation from the regulations.

Upon completion of the work authorized by this permit, the permittee shall notify the Building Inspection Office of such completion by requesting the final inspection. Such request can be made by calling (818) 548-4836. The permittee is hereby advised that they may be entitled to reimbursement of the permit fees if the City fails to conduct an inspection of the permitted work within 60 days of the request for a final inspection.

No construction is permitted before 7 A.M., nor after 7 P.M., Monday through Saturday. No construction is permitted on Sundays or on holidays. (Municipal Code Sec. 8.36.080)

The City of Glendale restricts the issuance of the building permit to the property owner or licensed general contractor only. Signatures of this individual must be verified by personal identification. Any person signing the permit application as an agent for the owner or contractor shall have an original letter of authorization at the time of permit issuance.

Building permits shall expire on the one hundred eightieths (180) day from the date of issuance if the work permitted hereunder has not been commenced. Such permit shall also expire if the building or work authorized by such permit is suspended or abandoned for such a period of 180 days at any time after the work commences. Substantial progress must be made in each 180-day period to remain active.

#2 IDENTIFY WHO WILL PERFORM THE WORK (Complete either 2a or 2b)

2a - CALIFORNIA LICENSED CONTRACTOR'S DECLARATION

I hereby affirm under penalty of perjury that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

Contractor Name and Address: Rescue Roofing Construction | 532 Riverdale Dr. Glendale, CA 91204

License Class and No. 1081612

Contractor Signature 

2b - OWNER-BUILDER'S DECLARATION

I hereby affirm under penalty of perjury that I am exempt from the Contractors' State License Law for the reason(s) indicated below by the checkmark(s) I have placed next to the applicable item(s) (Section 7031.5, Business and Professions Code: Any city or county that requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for the permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors' State License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt from licensure and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars (\$500).):

I, as owner of the property, or my employees with wages as their sole compensation, will do all of or portions of the work, and the structure is not intended or offered for sale (Section 7044, Business and Professions Code: The Contractors' State License Law) does not apply to an owner of property who, through employees' or personal effort, builds or improves the property, provided that the improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the Owner-Builder will have the burden of proving that it was not built or improved for the purpose of sale.

I, as owner of the property, am exclusively contracting with licensed Contractors to construct the project (Section 7044, Business and Professions Code: The Contractors' State License Law does not apply to an owner of property who builds or improves thereon, and who contracts for the projects with a licensed Contractor pursuant to the Contractors' State License Law.).

I am exempt from licensure under the Contractors' State License Law for the following reason: _____

By my signature below I acknowledge that, except for my personal residence in which I must have resided for at least one year prior to completion of the improvements covered by this permit, I cannot legally sell a structure that I have built as an owner-builder if it has not been constructed in its entirety by licensed contractors. I understand that a copy of the applicable law, Section 7044 of the Business and Professions Code, is available upon request when this application is submitted or at the following Web site: <http://leginfo.legislature.ca.gov>.

FEATURES & BENEFITS

- Solar reflective shingle in eight colors
- Sustainable NEX® asphalt technology
- Superior granular embedment and tear resistance
- Larger nailing area of The Zone®
- Double rain seal protection
- 3M™ Smog-Reducing Granules

Effective 10/23
Supersedes all previously published data.

Check for most current version at
WWW.MALARKEYROOFING.COM

PRODUCT USE

282/284 Ecoasis® is a solar reflective, laminated architectural shingle fortified with sustainable NEX® polymer modified asphalt technology for enhanced granule adhesion and increased weather protection. Ecoasis® also features the patented, nailing accuracy design of The Zone® which dramatically improves correct fastener placement. Ecoasis® shingles have measured radiative property values listed with the Cool Roof Rating Council and can be used to comply with California Energy Code Title 24, Part 6 Cool Roof Requirements, while Ecoasis® *Burlwood*, *Moonlit Black*, *Riverstone Grey*, and *Willow Wood* shingles can also be used to comply with Los Angeles County, California Title 31 Cool Roof Requirements. Please consult Malarkey's Technical Services Department for approval of roof systems.

COMPOSITION & MATERIALS

Ecoasis® is manufactured on a non-woven fiberglass mat and impregnated on both sides with NEX® polymer modified bitumen (asphalt) that is compounded with a fire-retardant mineral stabilizer. It's surface incorporates an innovative combination of ceramic granules that provide varied color, weatherability, increased solar reflectance, and even smog reduction.

APPLICATION

Shingles should be applied over a Malarkey underlayment or an approved, code-compliant substitute. Installation instructions are available on the shingle wrapper by scanning the corresponding Quick Response [QR] code, on our website at WWW.MALARKEYROOFING.COM, or by contacting your local Malarkey representative. Industry standards are found in NRCA manuals. Shingles should be attached to decking with approved fasteners, and Malarkey recommends the use of corrosion-resistant nails for this purpose. Staples are not allowed.

PRECAUTION

For best results, Malarkey recommends Ecoasis® be protected from the weather and stored in a cool, dry, well-ventilated area until applied. Do not double-stack pallets. Do not use on roofs where the slope is less than 2:12 [2" [51 mm] per 12" [305 mm]]. For slopes 2:12 up to 4:12 [4" [102 mm] per 12" [305 mm]], a double layer of underlayment is required [IBC & IRC have an exception for a single layer of ASTM D1970 underlayment in lieu of a double layer]. Ecoasis® has a factory-applied self-sealing strip that activates in warm weather. When applied in cold weather or windy locations, hand-sealing is recommended but not required if sealant activates. On slopes greater than 21" [533 mm] per 12" [305 mm], hand-sealing underneath and six nails are required. Contact Malarkey for further conditions and instructions.

WARRANTY

Malarkey Roofing Products® offers various warranties to meet specific requirements. The warranty packages available for Ecoasis® include a Limited Lifetime Warranty, a 110 mph [177 kph] Limited Wind Warranty, and can be combined with other Malarkey products for a 130 mph [209 kph] Enhanced Wind Warranty. Contact your roofer, local distribution center, or Malarkey for full details. See below for TECHNICAL ASSISTANCE contact information.

Ecoasis® and other Malarkey products are available throughout North America and Pacific Rim countries. Visit WWW.MALARKEYROOFING.COM for additional product information and availability.

SOLAR REFLECTANCE TECHNICAL DATA

Ecoasis[®] is listed with the Cool Roof Rating Council.

Ecoasis[®] has tested to these radiative property values:

Cool Roof Rating Council ratings are determined for a fixed set of conditions, and may not be appropriate for determining seasonal energy performance. The actual effect of solar reflectance and thermal emittance on building performance may vary.

Manufacturer of product stipulates that these ratings were determined in accordance with the applicable Cool Roof Rating Council procedures.
